This report combines for the first time inspection data for carload, cargo, and trucklot receipts and shipments of all grains into one publication. Previous reports contained data on carload receipts only and were issued in four separate publications:

Inspected Receipts of Barley and Oats (IR-B&O)
Inspected Receipts of Corn and Grain Sorghums (IR-C&GS)
Inspected Receipts of Soybeans and Flaxseed (IR-S&F)
Inspected Receipts of Wheat and Rye (IR-W&R)

The above separate publications on inspected carload receipts will no longer be issued.

Inspections of grain carload, cargo and trucklot receipts and shipments covered by this report were graded according to the Official Grain Standards of the United States. Complete definitions and grade requirements may be found in SRA-177, Official Grain Standards of the United States. Revised 1960.

Issued February 1962
